

Free Organic Compost!

Pick up across from the historic water tower before the Parking Lot at the Jennings Pavilion

Atherton's free self-service pile at Holbrook Palmer Park is available every day during park hours!

Bring your shovel, bucket or bags, and gloves. Residents and their landscapers are welcome to pick up organic compost to be applied in Atherton.

The compost comes from GreenWaste and is the product of your green bin – turning yard waste into a productive material that promotes healthy soils while capturing and storing short-lived climate pollutants.

Check out the compost at work! This Atherton resident's garden was grown using the free organic compost.

Contact Rachael Londer by email at rlonder@ci.atherton.ca.us or by phone (650) 752-0577 with any questions!
