

Livable Nashua

Working Together for a Resilient Future

The *Livable Nashua Plan* is the City's roadmap to a livable, resilient, and sustainable future for everyone. To meet the long-term goals of the City's *Imagine Nashua Master Plan*, *Livable Nashua* defines the short-term actions that the City will take to meet the challenges of climate change head-on and create a thriving community.

WHAT WILL IT TAKE TO ACHIEVE A LIVABLE FUTURE?

Ensuring a high quality of life for everyone in Nashua means creating healthy watersheds, accessible green spaces, expanded public transit options, and so much more. For example, the City has established several goals to expand access to renewable and affordable energy, which will also reduce air pollution and greenhouse gas emissions:

Achieve citywide carbon neutral electricity by 2050.

Power 25% of buildings in Nashua with solar by 2050.

Bring the City's electric portfolio to 100% renewable by 2050.

BUILDING ON A SOLID FOUNDATION OF PROGRESS

For years, we have been steadily working to enhance the health of our environment and safety of our community while always providing a high quality of life for all residents.

The City owns and operates two **hydroelectric dams** that supply clean energy to Nashua homes every year.

The **Nashua Community Power Program** helps residents connect to clean energy and save on their bills.

The **Resilient Nashua** initiative engaged local residents to identify potential climate hazards and vulnerabilities.

Working Together for a Resilient Future

WHAT'S INCLUDED IN THE LIVABLE NASHUA PLAN?

Goals, strategies, and actions in the *Livable Nashua Plan* will relate to five areas of everyday life in Nashua:

Clean Energy
& Efficient
Buildings

Resilient &
Healthy
Community

Smart Waste
& Water
Management

Sustainable
Transportation
& Land Use

Thriving Natural
Resources

PLANNING PROCESS TIMELINE

Using the data and stakeholder feedback collected, the City will develop goals, strategies, and actions to help us reach our community goals. We will launch the *Livable Nashua Plan* in early 2024.

Data Collection
& Baseline Assessment
